About probiotics and Bulgar Biotic:

We live in times of stress and uncertainty. We are in a hurry, we work, we win, we laugh, we struggle with our emotions ... Until one day we realize that we are about to lose the most precious gift given to us at birth - **health**. That is why Bulgar Biotic turns to **Lactobacillus bulgaricus** - the first natural probiotic in the world. The long and healthy life of the Bulgarian people was the result of the daily consumption of fermented milk and other lactic acid products produced in Bulgaria, which still remain the most beneficial for the Bulgarians.

Combining the old traditions of extracting **the most valuable natural ingredients and advanced production technologies**, Bulgar Biotic offers the highest quality probiotics under the brand name “Bactojoy” and with **Lactobacillus bulgaricus**!

Our mission is to help people feel healthier, more energetic and smiling.

Product description:

Bactojoy Babies and Kids is a new generation probiotic, produced in Bulgaria on the base of the authentic **Lactobacillus bulgaricus**, in combination with the important **Bifidobacterium genus and Vitamin D3**, for adolescents. An innovative formula for a balanced start and subsequent **natural protection for the body**, especially developed for newborns, babies and young children. **Helps maintain the beneficial intestinal microflora of the digestive system** in the youngest and growing ups. Stimulates **the building and maintenance of natural immunity**. It has a pleasant milky taste and a natural strawberry aroma.

In what case it is offered to the client and how it helps:

- Soothes colic and stomach discomfort;
- Aids the gastrointestinal tract in diarrhea of different types;
- Maintains a favorable gastrointestinal flora;
- Has a calming effect on long journeys;
- Change of seasons;
- During antibiotic treatment and after antibiotic treatment;
- Constipation.

Key benefits:

- **Halal and Kosher certified product**, developed and manufactured by FSSC 22000 Certified Laboratory in Bulgaria;
- **Contains 7 of the most important beneficial bacteria for the development of the children’s immunity**, probiotic strains, that support the normal functioning of the intestinal flora and immune systems of babies and children;
- Contains **Vitamin D3** - for healthy bones and teeth, stimulates calcium absorption and is essential for the bone system in adolescent children;
- The activity of micro-organisms is **3x10⁹ cfu/g**, by date of production;
- **A unique combination of probiotic strains** of the Lactobacillus family and Bifidobacterium to achieve the most beneficial effect on the infant and kid’s gastrointestinal flora.
