About probiotics and Bulgar Biotic:

We live in times of stress and uncertainty. We are in a hurry, we work, we win, we laugh, we fight our emotions ... Until one day we realize that we are about to lose the most precious gift given to us at birth - **health**. That is why Bulgar Biotic turns to **Lactobacillus bulgaricus** - the first natural probiotic in the world. The long and healthy life of the Bulgarian people was the result of the daily consumption of fermented milk and other lactic acid products produced in Bulgaria, which still remain the most beneficial for the Bulgarians.

Combining the deep traditions of extracting **the most valuable natural ingredients and advanced production technologies**, Bulgar Biotic offers the highest quality probiotics with the brand name "Bactojoy" and Lactobacillus bulgaricus!

Our mission is to help people feel healthier, more energetic and smiling.

Product description:

Bactojoy Femin is a new generation synbiotic produced in Bulgaria on the basis of the authentic **Lactobacillus bulgaricus** and contains **the Bulgarian rose Damascena**. Supports the **normal function of the immune system**, as well as **the natural balance of the gastrointestinal and vaginal microflora**, while maintaining optimum Ph and minimizing the possibility of infection. Helps **reduce inflammatory processes**. Supports the natural production of short-chain fatty acids. A powerful **antioxidant** that aids the liver in cleansing processes. **A natural source of fiber** with a very light laxative effect. It has a calming and rejuvenating effect. Supports the **normal functioning of the gastro-intestinal tract** and strengthens the protective functions of the body. Contributes to the **natural detox of the body**. Works in favor of **natural hormonal balance**.

In what case it is offered to the client and how it helps :

- As **prophylaxis**:
 - o vaginal infections;
 - o to maintain favorable gastrointestinal flora;
 - o during periods of increased stress;
 - o in season changings;
- As **accompanying treatment**:
 - o restoration of balance of the gastrointestinal flora;
 - o during antibiotic treatment and after antibiotic treatment.

Key benefits:

- As a prebiotic the product contains the **more innovative and much more active arabinogalactan** instead of the common prebiotic analogues;
- Contains Bulgarian rose Damascena - acts as a powerful antioxidant and source of fiber, with a soothing and restorative effect;
- Contains **colostrum** - one of the most powerful immunomodulators;
- The activity of micro-organisms is **3x10⁹ cfu/g**, by date of production;
- **A unique combination of probiotic strains** of the Lactobacillus family to achieve the most beneficial effect on the human gastrointestinal flora.

Quality guarantee:
